Technician Announcement Number: 07-037

Position: Sheet Metal Mechanic (ACFT), WG-3806-10, 80114000

Brief Description of Duties: Independently inspects aircraft and determines the nature and extent of repairs to be made, using applicable technical orders as guidelines. Repairs cracks in aircraft skin. Fabricates and fits patches to damaged areas, determining repair detail necessary to retain or restore original strength. Troubleshoots aircraft structural repair situations in such areas as fuselage, tails, wings, cowlings, and stabilizers. Removes damaged or broken fasteners and receptacles. Aligns and balances component structures and airframe using precision measuring instruments and levels. Repairs or replaces retaining frames and installs plastic laminated blanks. Designs and constructs forming fixtures. Manufactures and ensures that metal tubing, conduits and cables are fabricated and tested in accordance with drawings and specifications. Prepares and designs layout, dies, jigs, and templates necessary to carry out fabrication repair or modification of aircraft, engine, AGE, and other equipment. Identifies metal corrosion. Performs such functions as pickling of metals to prepare for good bonding with primer coat of protective materials. Accomplishes corrosion and washing inspections within schedule provided to ensure compliance with the monthly and weekly maintenance plan. Prepares for and participates in various types of readiness evaluations such as MEI, ORI, IG and UE and inspections mobility command support exercises. Incumbent may be required to prepare for and support the mission through the accomplishment of duties pertaining to military training, military readiness, force protection and other mission related assignments including, but not limited to, training of traditional Guard members, CWDE/NBC training, exercise participation (ORE/ORI/UCI/MEI/OCI/IG, etc.), mobility exercise participation, FSTA/ATSO exercise participation, SABC training, LOAC training, weapons qualification training, participation in military formations, and medical mobility processing within the guidelines of NGB/ARNG/ANG/State/TAG rules, regulations and laws. Performs other duties as assigned.

Qualifications: WG-10

General Experience: Experience, education, or training which demonstrates the candidate's ability to develop patterns, layout, cut, form, join, assemble, and install sheet metal parts and systems. Skill in the use of shop tools and equipment.

Specialized Experience: Must demonstrate eight-teen (18) months experience in which the following Knowledge, Skills, and Abilities (KSA's) as described below have been attained.

Knowledge, Skills and Abilities (KSA's) Statements (WG-10)

- A. Ability to work independently from written or oral instructions, blueprints, sketches, or personal inspection of items or systems to be manufactured or repaired.
- B. Skill in making layouts, patterns and templates using recognized trade methods and practices.
- C. Knowledge of aircraft design and structure as well as testing procedures and prevention of metal corrosion.
- D. Knowledge of metal strength characteristics (annealing, tempering, and normalizing) in the selection of the proper materials for repair.
- E. Skilled in the use of various complicated tools and equipment.

**Current Unit assignment, AFSC/SSI and Military grade must be included on application.
Incomplete applications will not be considered for employment.**
